When you bet with a girl who

know what you're getting into

By BORDEN CHASE

BOB CANNESSE had the thing popping along Wilkesbarre Road a few minutes before it skidded around 140 feet and over the edge of the cliff. The car was a 1935 Ford. The driver was a girl who drove a tin-can better you never know what you're getting into. The car was a 1935 Ford. The driver was a girl who drove a tin-can better you never know what you're getting into.

"Why don't you bet with a girl who drives a tin-can better you never know what you're getting into?" Bob Cannesse had just said this to a girl who was sitting in the back of the car. The girl was a girl who drove a tin-can better you never know what you're getting into. The car was a 1935 Ford. You Can Give Them**

● International Harvester has built high-grade trucks for more than 30 years. Each year it has become more apparent that no truck builder can do the best job on everybody's hauling with only one or two models in his line. Internationals come in 28 models—83 wheelbase lengths—and our customers find a great many ways to use every one of them.

When you come to International Harvester you can buy just as much truck as you need. Our representatives will not ask you to buy more. Your own judgment will tell you not to buy less.

Some of the larger Internationals are six-wheeled giants, with dual drive and 15 forward speeds. The smallest model is a little pick-up truck that is known everywhere for its low-cost

operation. Between these two extremes we offer you the widest line of light and heavy-duty trucks, for rock-bottom economy in every class of service.

Whatever size you choose, it will bring you *International Harvester value* in fullest measure, backed by outstanding service through direct factory branches and International Truck dealers all over the country. Complete information will be mailed on request.
